

Sealant, Adhesive & Grease Dispensing

- Lowest trigger force and weight in its class
- Precise control of low/medium viscosity sealant and adhesive materials
- Changeable tips for a variety of dispensing applications
- Selectable trigger lock and hanger slot for the operator

Dry weight: 320g

**Ultra-lite
in-line flow gun**

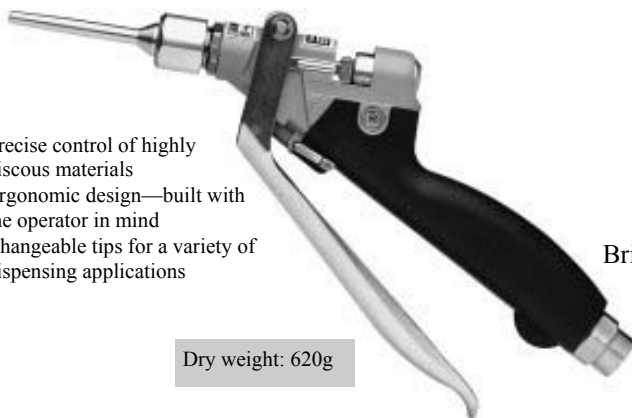

Single part, high viscosity sealant, adhesive & grease dispensing

The balanced displacement of the Monark pneumatic pump unit coupled with either the lightweight in-line (320g) or pistol grip (620g) flow guns provides excellent fluid control for precise manual dispensing from standard 20/25 Kg pails. A wide variety of nozzles ensures that a bead pattern unique to your application can be achieved.

Typical Applications

- Automotive interior/exterior seam sealing
- Automotive after-hem sealing
- Domestic appliance flange sealing
- Gasket laying
- Panel bonding

Ultra-lite pistol grip flow gun

Dry weight: 620g

- Precise control of highly viscous materials
- Ergonomic design—built with the operator in mind
- Changeable tips for a variety of dispensing applications
